## User Module Flow

## Screen Design

### Feature: Login

The image shows a mobile app login screen. At the top, there's a status bar with 4G, 3G, 10:50, 0.00 KB/s, VoLTE, 63%, and a battery icon. Below the status bar is a teal header with a back arrow and the word "Back". The main title "LOGIN" is centered in white. Below the title, a white card contains the text "Welcome back! Let's book your vaccine the right way." followed by an illustration of a woman sitting at a desk with a laptop and a smartphone. Below the illustration are input fields for "EMAIL" and "PASSWORD". To the right of the password field is an eye icon. Below the password field is a link "Forgot password?". Below these are two social media login buttons: a Google "G" logo and a Facebook "f" logo. At the bottom of the card is a large teal "Sign In" button. Below the button are two links: "Skip Login" and "New here? Sign Up".

User can login with email and Password, Google or facebook. After Click on forget password user can change the old password. If a user wants to an see item without login then they can select skip login option. But after select skip login option user only see the item they can't purchase the item. Sign up link is use to create new Registration.

### # API – Login

**Method – GET**

**URI:** <http://13.235.94.105/eportal/api/Account/login>

#### **Request Body –**

```
{  
  "email": "abcuser10@gmail.com",  
  "password": "User@123"  
}
```

#### **Response Body –**

```
{
